

ADVANTAGES

- Media formed into radial pleats supported with a welded wire grid backing.
- UL900
- Guaranteed to last 12 months in commercial duty applications and 9 months in industrial level applications.
- Unique proprietary dual-layer media enclosed in the industry's strongest moisture-resistant beverage board frame.
- Has an efficiency value of MERV 9 and 9-A and an ISO ePM-55.

Application	Prefilters to higher efficiency filters, stand-alone filter for rooftops, split systems, free-standing units and package systems and air handlers.
Frame	High wet strength beverage board
Media	Dual layered, blended polyester
Recommended final pressure drop	2x Initial pressure drop
Max. final pressure drop	1.0" w.g.
Max Temperature (°C)	93 °C
